

Attached is a letter which outlines my response to a local disk jockey who encouraged motorists to hit bicyclists and run them off them road. This is totally irresponsible behavior and needs to be looked into. It is not the first time a Clear Channel station has done this. It also happened in Cleveland and somewhere in Texas. They just don't seem to learn from it. I think something needs to be done to get the attention of Clear Channel that this is a totally irresponsible form of behavior.
